The current schedule is for EPA to demobilize from Santa Fe at COB on Tuesday. Therefore if any group needs assistance or personal training with SCRIBE prior to my departure, probably Wednesday, please let me know. I realize that data will start flowing in next week, and we will be available to help remotely after Wednesday, but if there are any questions on the process or SCRIBE itself, please let me know so we can get this data disseminated in a timely manner.

I can be reached at mloesel@att.net (epa mail is currently down) or at loesel.matthew@epa.gov or via phone at 817-271-4586.

Matt Loesel
